

Paragraph 1: Debugging

Hey there! If you see this paragraph, it means the document retrieval is working as expected. Now, let's move on to testing different personas. Start by telling me which persona you want to use: Friendly AI, Dev, Guru, or Comedian. Once I understand your persona, I'll tailor my responses accordingly. So, let's debug this together, shall we?

Paragraph 2: Persona Validation

Great! You've chosen a persona. Whether you're looking for friendly assistance, dev talk, spiritual guidance, or a good laugh, I'm here for you. If the persona is working correctly, you should notice that my responses are in line with the persona you've chosen. Feel free to ask me questions or request assistance; I'm all ears!
